JQ6B400 Filling sealing machine

According to the actual situation of domestic large and medium-sized canneries and beverage factories, the company has designed and manufactured the most advanced tank sealing and filling similar products in Switzerland. The pneumatic control automatic lower cover without tank body contact, the equal liquid level filling technology is adopted, the production capacity is

frequency conversion speed regulation, to ensure the beauty and health requirements of the whole machine. In order to improve the vacuum degree in the tank, the steam injection device can be configured according to the customers requirements to ensure the maximum technical support to the customer

The filling head of the unit is 36, the sealing head is 6, the production capacity is 200-400 cans / minute, the applicable tank diameter is $\Phi 52.5$ - $\Phi 83$ mm, the applicable tank height is 70-133mm, the air source pressure is 0.6 Mpa, the overall power is 7.5KW, the weight is 4000 Kg, and the external size is 4300X2400X2000mm.

2. Material

- A. Transmission components: high-quality carbon steel
- B. Filling valve assembly: SUS304 stainless steel, silicone rubber
- C. barrel parts: SUS304 stainless steel
- D. Filled parts: Pneumatic control, SUS304 stainless steel
- E. Conveyor belt part: side plate is SUS304 stainless steel, conveying chain is POM flat top chain
- F. Workbench components: the frame is carbon steel structure with SUS304 stainless steel uard plate
- G. Sealing parts: high-quality carbon steel, bearing steel, and tool steel

Address: Shenjiamen, Dayan Biological Park, Putuo District, Zhoushan City, Zhejiang Province, China

Address: Da Gan Biological Garden, ShenJiaMen, PuTuo District Zhou Shan City, ZheJiang Province, P.R China

3. Electrical configuration

A. Touch screen: dimension control	B. PLC: Dimension control
C. Inverter: Flehuang	D. proximity switch: Yifu door
E. Switch power supply: Ming Wei	F. Relay: Omron
G. Circuit breaker: Chint	H. Pressure reducing valve: Yadke
I. Power switch: Chint	J. Contactor: Chint
K. Three-phase motor: Luan Xinshun	L. Pneumatic butterfly valve: the square valve
M. Cylinder: Yade passenger	N. Solenoid valve: Yarker
O. Photoelectric switch: Bergafu
